*INDEPENDENT AUDITOR'S REPORT*

London-Maybee-Raisinville  
Fire Department Board  
P.O. Box 144  
Maybee, MI 48159

We have audited the accompanying financial statements of London-Maybee-Raisinville Fire Department as of and for the year ended March 31, 2007, as listed in the table of contents. These financial statements are the responsibility of London-Maybee-Raisinville Fire Department's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of London-Maybee-Raisinville Fire Department as of March 31, 2007, and the changes in financial position for the year then ended in conformity with generally accepted accounting principles in the United States of America.

The management's discussion and analysis on pages 2 through 3 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consist principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion in it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise London-Maybee-Raisinville Fire Department's financial statements. The required supplementary budgetary comparison is presented for purposes of additional analysis and is not a required part of the basic financial statements. The required supplementary budgetary comparison has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Using this Annual Report**

This annual report consists of two types of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Department as a whole and present a longer-term view of the Department's finances. Fund financial statements tell how these services were financed in the short-term, as well as what remains for future spending.

**The Department as a Whole**

The Department's net assets decreased 3.5% from a year ago – decreasing from \$1,233.31 thousand to \$1,190.4 thousand. In a condensed format, the table below shows a comparison of the net assets (in thousands of dollars) as of the current date to the prior year:

The current level of unrestricted net assets for our activities stands at \$29.5, or about 12% of expenditures. This is within the targeted range set by the Department Board during its last budget process.

The following table shows the changes of the net assets (in thousands of dollars) as of the current date to the prior year:

	<u>2007</u>	<u>2006</u>

**NOTE 1 -- Summary of Significant Accounting Policies**

The accounting policies of the London-Maybee-Raisinville Fire Department conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the London-Maybee-Raisinville Fire Department:

**A - Reporting Entity**

The London-Maybee-Raisinville Fire Department was organized May 10, 1952, by Raisinville Township, London Township, and the Village of Maybee, as a joint venture. The LMR Fire Department maintains a volunteer fire department provides services to all three parties of the joint enterprise. The LMR Fire Department operates under an elected board (7 members), 2 members from each of the three parties, and 1 member who is to be selected by the other 6 board members.

Raisinville Township contributes 50% of the annual revenues of the Organization, London Township contributes 37% and the Village of Maybee's contribution is 13%. The percentage is reviewed annually and adjusted based on the prior five years fire runs. As described in GASB Statement No.14, each of the participants have an ongoing financial responsibility in the joint venture.

**B - Organization-Wide and Fund Financial Statements**

The organization-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of the organization.

**C - Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The organization-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the organization considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

**D. Assets, Liabilities, and Net Assets or Equity**

Bank Deposits and Investments --Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payables --All trade receivables are shown as net of allowance for uncollectible amounts.

Inventories and Prepaid Items --Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Use of Estimates -- Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

March 31, 2007

**NOTE 1 -- Summary of Significant Accounting Policies (Continued)**

Capital Assets--Capital assets, which include land, building and equipment are reported in the governmental activities column in the financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$500 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Equipment and buildings are depreciated using the straight-line method over the following useful lives:

Machinery and Equipment	10 to 20 years
Buildings	40 years

Compensated Absences (Vacation and Sick Leave)-- The Department has no policy or obligation for sick and vacation pay benefits.

Fund Equity--In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Reclassifications--Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

**Note 2 - Reconciliation of Organization-wide and Fund Financial Statements**

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a adjustments between net changes in in fund balances and changes in net assets as reported in the statement of activities. One element of that adjustment is that governmental funds report capital outlays as expenditures; in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	\$ (44,133)
Depreciation	86,092
	<u>\$ 41,959</u>

**Note 3 - Stewardship, Compliance and Accountability**

Budgetary Information--Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. All annual appropriations lapse at fiscal year end. The legal level of budgetary control adopted by the governing body is the department level. (i.e., The level at which expenditures may not legally exceed appropriations). Any revisions that alter the total expenditures of any activity must be approved by the Department Board.

Amounts encumbered for purchase orders, contracts, etc ., are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

Excess of Expenditures Over Appropriations in Budgeted Funds--During the year, the Department incurred no expenditures in in excess of the amounts appropriated.
